

Please see the third and later sheets for specifications for all material details.

An old brick garden path leads through a 100m wide to the front door. A wide sweep of gravel joins the driveway along the side up to the back steps. A curving old brick path with steps runs through the border surrounded by beautiful cottage planting. Please see specification B.

An old brick path with a large border with a central lawn area and scattered cottage planting. Please see specification A.

An area of old brick paving forms a small seating area, with steps down the porch to the cottage and with an oval lawn surrounded by scattered planting. Please see specification C.

A wide sweeping border runs along the boundary from the top of the garden to the house planted with beautiful cottage planting. Please see specification D.

A newly sited lawn with fresh brick edging runs along the path from the top of the garden to the top of the garage. Please see specification E.

An old structure formed with an oval lawn and scattered planting forms a large area for entertaining and like a large sunny path with the side of the cottage. Please see specification F.
